

1. What are the top 10 selling genres?

Top 10 Selling Genres

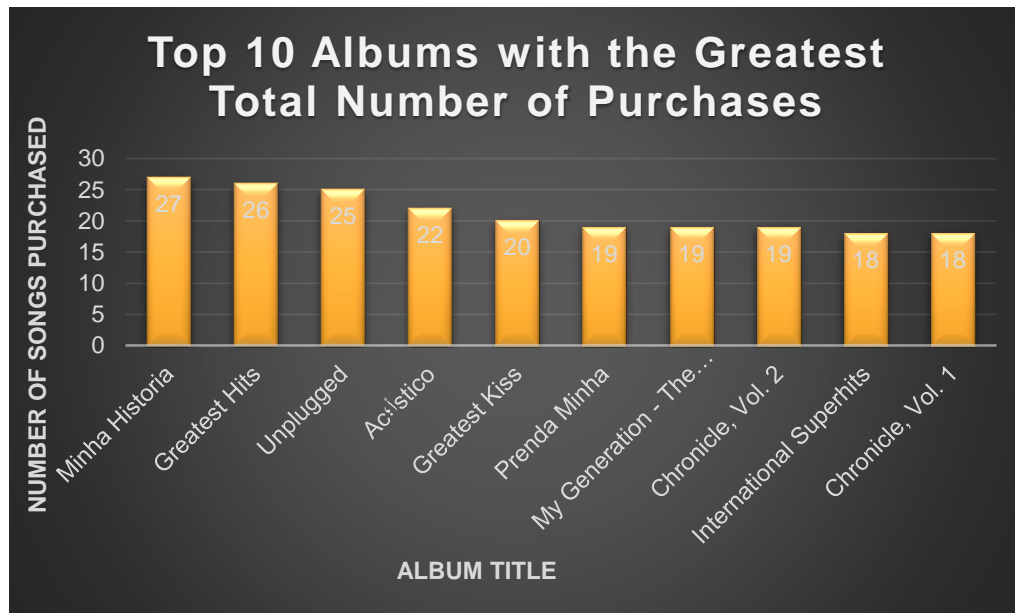

Rock is the top selling genre with a huge difference compared to number 2 which is Latin, 835 compared to 386.

Metal and Alternative & Punk come in number 3 and 4 with number of songs relatively near to the Latin genre.

From rank 5 to 10, numbers are relatively close to each others.

2. What are the top 10 albums with the greatest total number of songs purchased?

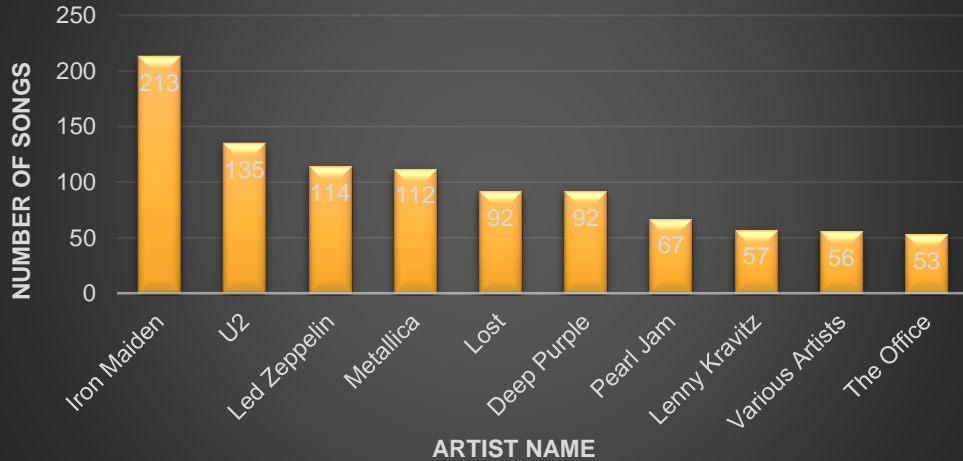

Minha Historia is the album with the most number of songs purchased.

A song purchased in two different invoices is counted twice.

I limited the query to only the top 10 albums, however, there are two more albums (rank 11 and 12) with 18 songs purchased, Chronicle, Vol.1 and Acústico MTV.

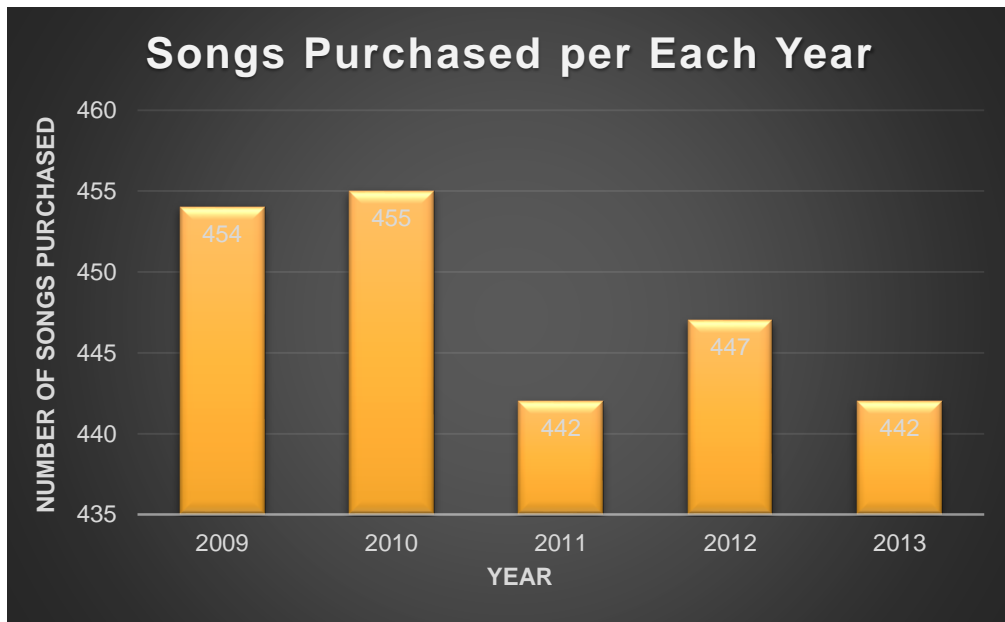

3. Who are the top 10 artists with the most number of songs in the database?

Top 10 Artists with the Highest Number of Songs

Iron Maiden is the top artist with the highest number of songs in the database with 213 songs.

4. What is the total number of songs purchased per year?

2010 was the year with the highest number of songs purchased with a slight difference of only 1 song.

All of the years have a decent number of purchases compared to the maximum, but there has to be a number 1.
